Allowable Subject Matter

Claims 1-2 and 12-20 are allowed.

The following is an examiner's statement of reasons for allowance: With respect to claim 1, the prior art failed to teach or render obvious having a prescribed separation band completely traversed, and the relative speed is calculated from the difference between the object separation determined before the entry into the separation band and after the exit out of the separation band and from the number of cycles. The prior art teaches determining the relative speed of an object from the difference of distances from two measurements. However, none of the prior art either singularly or in combination teaches the claimed method.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
